

“More SPA - Less Money”

Made in USA

*Xtreme
Spa Series*

Welcome to *Turbo Spas*

There is a simple reason **TURBO SPAS** has been around since 1991...we have always been dedicated to Quality and Reliability, as well as standing behind everything we manufacture, with INTEGRITY!! With over 60 years of combined experience in the spa industry, we are proud of the dedication and expertise our management and staff members bring, and with that, work hard to deliver the highest quality of spas in the industry.

It is important to know, our spas are tested every step of the way to ensure you receive the highest quality of construction. Our manufacturing process includes new features and designs while utilizing advanced technologies. We are known for our innovative ideas in design, comfort and being the best constructed spas in the industry. When you set out to purchase a spa, there are a few key elements you should consider:

CRAFTSMANSHIP

PERFORMANCE

VALUE

CONSTRUCTION

COMFORT

RELAXATION

At **TURBO SPAS**, we take pride in making sure we are consistent in each of these facets within the spa manufacturing process. We believe the vision that goes into the design of our line, will meet your needs for today as well as into the future.

- ❁ Ultra Foot Massager

TURBO SPAS robust designed cabinets begin with a 2x4" Douglas Fir frame, followed by a 2x4" pressure treated, anti-rot base. The sides are constructed with L.P. smart panels and are screwed on for easy accessibility. In addition, the cabinet is held together with 12 or 16 - 4 1/2 inch lag bolts. To complete the design, we attach a thick piece of ABS plastic at the base of the spa which helps to maintain heat as well as keeping out unwanted pests.
